Introduction to the Psychology of Diversity 3 Gender The study of gender, including related topics like sex roles and sex differences, is by far the most-researched aspect of diversity Gender is a good case study for understanding that majority-group status is conferred by status and control over resources and not mere statistical majority

### **PSYC 221 - Social Psychology**

Social psychology is the scientific study of how people's thoughts, feelings and behavior are influenced by the actual, imagined, or implied presence of other people (Allport, 1985) In other words, Social Psychologists try to understand the mental processes that determine how we think about ourselves and

### **Lifetime Activism, Marginality, and Psychology: Narratives ...**

concepts from within social psychology can aid in our understanding of how and why individuals become increasingly committed to creating change We discuss how these findings may contribute to theory development on understanding the experiences and efforts of individuals who contribute to social change

### **Understanding Ourselves and Our Relationships**

Understanding ourselves probably aids self-acceptance, self-control, and good relationships But self-understanding only comes from interacting with others; we know ourselves in comparison to others So, the two--self-awareness and insight into relationships--develop together Indeed, we have a relationship with ourselves as well as with others
